

I'm not robot!

himself could rent—and half cognizant of his own ruin. For all of his subsequent genius, director Paul Thomas Anderson has never eclipsed this scene.—Joshua Rothkopf Buy, rent or watch Boogie Nights Download "Sister Christian" on Amazon Watch the video for "Sister Christian" by Night Ranger and "Jessie's Girl" by Rick Springfield One could cull a top-ten-song list just from Martin Scorsese's landmark crime epic, the most influential movie of the 1990s. The director was yoking pop music and images with a deftness no one could touch, for the sake of our list, we'll go with this montage of whacked comrades, set to the forlorn piano outro of Eric Clapton's early-'70s radio staple. The party is over as goons meet their long-telegraphed ends: slain in a pink Caddy, hanging in a meat truck and gunned down in the private living room of a "made guy," where a promotion takes a shocking turn. Even as you watched the sequence for the first time, it felt like a classic—and still does. (We can't embed the specific part, but here's a link to it.)—Joshua Rothkopf Buy, rent or watch Goodfellas Download "Layla" on Amazon Watch the video for "Layla" by Derek and the Dominoes The most signature piece of music to ever grace a horror movie (and now an instant evocation of creeping doom), Mike Oldfield's prog-rock composition was selected for this 1973 blockbuster's opening theme after an entire original score was rejected by director William Friedkin. In the piece's tinkling piano and synths, you can hear a premonition of the iconic soundtracks of John Carpenter to come. Early in the film itself, you see Ellen Burstyn strolling down a leaf-strewn Georgetown street. Children cavort in costumeâ€”it's Halloween. Nuns pass, their robes billowing in ghostly waves. Suddenly Burstyn stops, noticing two priests having a heart-to-heart conversation. "There's not a day in my life that I don't feel like a fraud," one of them says, anguished. Everyone's faith is about to be tested. (Above is the trailer—brace yourself—and here's a link to the scene.)—Joshua Rothkopf Buy, rent or watch The Exorcist Download Tubular Bells on Amazon Watch the video for Tubular Bells by Mike Oldfield Gershwin wrote his groundbreaking high-art-meets-lowbrow work in 1924 as a "musical kaleidoscope of America." But after fellow Brooklynite Woody Allen set his film's opening montage of local landmarks and crowded avenues to the composer's signature tune, you can't help but think of one specific city whenever you hear those joyously jazz-inflected fanfares. Cinematographer Gordon Willis's peerless black-and-white Gotham tour combined with Gershwin's vintage ode fully captures the poetry and sound of the streets. This is late-'70s NYC recast as an old-fashioned urban wonderland, a version of past and present Manhattans linked together with every skyscraper shot and slinky piano run.—David Fear Buy, rent or watch Manhattan Download Rhapsody in Blue on Amazon Watch the video for Rhapsody in Blue by George Gershwin Tarantino has already made several appearances on our list, yet here is the sequence that stands above all his others. QT places Stealers Wheel's benign folk-pop tune over an unlikely scene in which a cop is tortured at great length by the psychotic, razor-wielding Michael Madsen. What starts as a playfully meta moment with "Mr. Blonde" doing some swaggering dance moves turns deadly serious by the time of the infamous ear slicing, when the song's playful cries of "Pl-ee-ee-ease!" might double as unanswered cries for mercy. Along with Tarantino's impeccable musical taste, it makes for an instantly memorable set pieceâ€”the first of many in the filmmaker's oeuvre.—Keith Uhlich Buy, rent or watch Reservoir Dogs Download "Stuck in the Middle with You" on Amazon Watch the video for "Stuck in the Middle with You" by Stealers Wheel Let's say your true love has broken up with you, and you're going to blast something on a boom box outside their window to win them back. Most people would probably pick one of the era's soft-rock hits or power ballads; then again, most people aren't Lloyd Dobler. Kudos to Cameron Crowe for picking Peter Gabriel's sincere confessional as the perfect offbeat choice for John Cusack's heart-on-his-sleeve hero to serenade dream girl Lone Skye. Thanks to the combo of the song's testimony to soulmate salvation and Cusack's misfit sensitivity, the scene has become an iconic moment of hopeless romanticism, parodied a million times over yet still able to bring tears to our eyes.—David Fear Buy, rent or watch Say Anything... Download "In Your Eyes" on Amazon Watch the video for "In Your Eyes" by Peter Gabriel Vera Lynn's sentimental 1939 tune became a WWII anthem for the British, a heartfelt promise that England's sons and daughters would be reunited come what may and normal existence would resume. Stanley Kubrick's repurposing of Vera Lynn's keep-your-chin-up ditty for his satirical zero-sum game, however, put a stake through any prevailing notions of optimism; life after wartime was a now thing of the past. In an era when sick humor was the only sane reaction to notions of nuclear Armageddon, Kubrick's keenly realized callback to this old favorite, playing over a parade of mushroom clouds, goes way beyond irony. It's a punch line to the blackest joke imaginable. (Our clip includes the scene beforehand.)—David Fear Buy, rent or watch Dr. Strangelove or: How I Learned to Stop Worrying and Love the Bomb Download "We'll Meet Again" on Amazon Watch the video for "We'll Meet Again" by Vera Lynn Jim Morrison's spellbinding 12-minute dirge was originally intended as a breakup song, but with its explicit evocations of patricide and incest (as well as the lead singer's animalistic vocalizations), the tune evolved into something more allegorical, a larger consideration of the violent beast inside us all. The mythic stature of this pop magnum opus only increased when Francis Ford Coppola placed it over the trancelike prologue of his 1979 Vietnam war epic. Helicopters slide cagily through the frame, a forest is devastated in a slo-mo napalm bombing, and Martin Sheen's somnolent visage—caught somewhere between dream and reality—floats over it all. Morrison and the band's apocalyptic lament evokes the horrors of a war as vividly and aptly as do the images.—Keith Uhlich Buy, rent or watch now Apocalypse Now Download "The End" on Amazon Watch the video for "The End" by the Doors "Candy-colored clown....," requests the deranged Frank Booth (Dennis Hopper) to his dandyish friend Ben (Dean Stockwell) in a womblike parlor. What has curious collegian Jeffrey Beaumont (Kyle MacLachlan) gotten himself into? David Lynch's epochal 1986 freak-out doesn't lack out sequences, but there's something especially unnerving about this prolonged detour behind suburban closed doors (freaky ladies sitting around listlessly, Hopper's terrifyingly bug-eyed countenance). It famously climaxes with Ben lip-synching to Roy Orbison's soaring lost-love ballad using a work light as a microphone. It's a nightmare you never want to wake up from.—Keith Uhlich Buy, rent or watch Blue Velvet Download "In Dreams" on Amazon Watch the video for "In Dreams" by Roy Orbison It builds, softly, with three ascending notes...then an eruption of strings and woodwinds, punctuated by colossal timpani hits. That's when the light crests over a gigantic planet—the view of a sunrise as seen from an orbiting space station, or witnessed by God Himself. Stanley Kubrick wanted to use classical compositions instead of the commissioned (and discarded) Alex North score to attain an appropriately massive soundtrack to his cerebral sci-fi masterpiece, and Richard Strauss's tone poem supplies the film's opening moments with an immediate sense of scope and grandeur. This is what the majesty of the universe sounds like. Everyone from Elvis Presley to the makers of cat food commercials has since hijacked this Nietzsche-inspired work for their grand entrances, but Kubrick got there first; by the time 2001's title credit shows up under that sustained musical burst, the combination of sound and image has already transported you to infinity and beyond.—David Fear Buy, rent or watch 2001: A Space Odyssey Download Thus Spoke Zarathustra on Amazon Watch the video for Thus Spoke Zarathustra by Richard Strauss Show moreBy entering your email address you agree to our Terms of Use and Privacy Policy and consent to receive emails from Time Out about news, events, offers and partner promotions.
